Key features

- Exposure to a diversified portfolio of Australian shares, managed by AMP Capital Investors Limited in Australia.
- In Australia, AMP Capital Investors Limited's investment style is based around two concepts:
 - The 'capital' investment style is based on the expectation that wealth creation is closely linked to a company's ability to manage its capital and we seek out companies with the capacity to deliver sustainable excess returns on their capital base.
 - The 'enhanced index' approach is a form of index-based share investment and includes the use of return enhancement techniques where we take on slightly higher levels of risk, relative to the benchmark, than an index fund.
- This fund currently invests in the Wholesale Australian Shares Fund, a unit trust managed by AMP Capital Investors in Australia.
